Dear Larry,

In addition to your pattern of problematic behavior – which has resulted in at least three verbal warnings and one written warning – it has recently come to our attention that you inappropriately communicated to employees that you had not killed anyone for a while and regarding potentially shooting members of a particular religion and/or race. This type of comment is not appropriate in our workplace, disregards our values and code of business conduct, and can create a hostile and/or dangerous work environment.

As such, this letter is to notify you that, effective immediately, May 18, 2018, your employment with CAE is terminated due to this threatening and discriminatory speech, as well as your pattern of problematic behavior.

Sincerely,

Nelson Camacho
